**MSD Notice of Construction Completion
McMicken Ave. & Warner Ave. Sewer Replacement
In City of Cincinnati, Hamilton County, Ohio**

Cincinnati, June 11, 2007 - Managed by the Metropolitan Sewer District of Greater Cincinnati (MSD), the Fred A. Newmann Co. completed the installation of the McMicken and Warner Replacement Sewer.

The project replaced 168 feet of severely deteriorated sewer. Construction occurred in the Warner Ave. right-of-way between McMicken Ave. and Fairview Park Drive in the neighborhoods of Clifton, University Heights and Fairview (CUF) in the City of Cincinnati.

This project is part of MSD's ongoing Capital Improvement Program (CIP), which is focused on continually updating and improving the operation of MSD's wastewater collection and treatment systems.

Every day, the Metropolitan Sewer District of Greater Cincinnati (MSD) manages the effective collection and treatment of more than 200 million gallons of wastewater and actively maintains 3,000 miles of sanitary and combined sewers that run through the 49 municipalities and townships of Hamilton County. Owned by Hamilton County and operated by the City of Cincinnati, MSD is committed to continually maintaining and improving its wastewater collection and treatment systems for the betterment of both public and environmental health.
